LEXINGTON.

MONDAY...SEPT...12...1836.

The great length of the Post Office law, published in this day's Gazette, necessarily excludes many articles deemed of interest by us, although nothing is omitted of great importance. By the instructions of the Secretary of State, we are not permitted to divide a law, unless it would occupy more than three pages of our paper; and the great difficulty of procuring hands, renders it impossible to issue a supplementary paper at this time. We can, however inform our readers, that there is no other law of equal length, and that a few numbers more will complete their publication, after which, we shall, we hope, present a more acceptable paper to most of our patrons.

The Transylvania Journal of Medicine, and the Associate Sciences, for April May and June. We have not had time to examine this number, nor have we room in this day's paper, to give its contents. We can only say, at present, that the paper, and the typography, executed by J. Clarke & Co. are excellent by no Eastern publication of similar character if equalled. We shall take further notice when we have time and room.

Drawn numbers in the Virginia State Lottery, Class no. 5, drawn at Alexandria, August 27: 56. 49. 58. 42. 17. 12. 45. 33. 38. 32. 74. 66.

TO THE PUBLIC.

The undersigned, deem it an act of justice, not to themselves alone, but to the community of which they are members, more especially to those whose generous sympathies were so deeply enlisted in the cause of Texas, to make known the causes which have induced them to abandon an enterprise, in which they embarked with so many fond and flattering hopes. They would have been glad to have been spared this painful task. They take no pleasure in the performance of an act, which may tend to check the universal current of kindness and sympathy which has been manifested by the people of Kentucky, toward the people of Texas, from the beginning of their revolution down to the present time. They have too distinct a recollection of their own feelings, as they then thought, of civil and religious freedom, not to know that their return and this brief exposure of the motives which induced it, will cause a pang of mortification in many bosoms which were then with exultation, in the hope of Texas's freedom, which rests upon them. To justify themselves, to the world, could now impel them to expose the unhappy civil and political condition of Texas to declare, as they now do, their solemn convictions of her total unworthiness of aid or sympathy. We might perhaps be content with this declaration of our opinions, but we will proceed briefly to fortify those opinions by a detail of facts.

We will not dwell upon the false assurances made to us by men professing to be the accredited agents of Texas in this country. At a time when the cause of Texas was dark and gloomy, when Santa Anna seemed destined to carry desolation over the whole country, those men were prodigal of promises, and professing to be authorized to speak in the name of the Texas Government made assurances of ultimate remuneration which they knew at the time were false, and which time proved to be so. But of this hereafter. The public were informed at the time, of our extraordinary delay at New Orleans. It was generally attributed to the urgency of the Texas agent at that place. There was a deeper cause. The battle of San Jacinto had been fought and the President and Cabinet believing that the war was at an end, thought there would be no use for more volunteers and if we could be delayed beyond the first of July, we should lose the benefit of the provisions of the Decree in Council; that being the time for the operation of the act to expire. The President and Council actually issued an order prohibiting the coming in of additional volunteers. In the mean time, however, a rumor was circulated that the Mexicans were about to make another effort to regain the country, and we were coming into Texas with 15,000 men, and we were then permitted to embark. Captain Postlethwaite proceeding in advance with about one hundred troops on the 24 day of July; Colonel Wilson remaining with the residue, expecting to follow in a few days, but was in the mean time fire related, detained ten days. Captain W. got off on the 12th of July and arrived at Galveston after a passage of seven days. Captain P. had made his passage in four days. Captain P. being thus several days in advance of Colonel W. and having nothing to occupy him, concluded to visit Velasco, the Seat of Government, for the purpose of making a personal examination of the country and to ascertain if possible, its civil condition. On his arrival at Velasco, he was introduced to President Burnet by a friend and presented a letter of introduction, which was opened, glanced at and thrown by without comment; Captain P. not being asked to sit, or treated with common

civility. Captain P. left President Burnet and returned to his hotel, where he had several different propositions made to him by officers in the Texas service, to join them with the men under command, avowing their object to be, to secure the country, and take every thing valuable which they could find in the United States, as they said they did not expect the Texas Government to pay them a cent for the service they had rendered or the expenses they had incurred. Captain P. was then informed that the representations made by Texas agents were false—that all right to head-right claims expired with the Declaration of Independence, and that no bounty would be given by any volunteers who arrived after the first of July. Captain P. then returned to Galveston, at which place Colonel W. had arrived in his absence, and communicated to him all the material facts which he had become possessed of at Velasco. Captain P. at that time announced his resolution to return home, informing the Colonel that he had become sufficiently disgusted with the state of things at the Seat of Government. Colonel W. prevailed upon Captain P. to remain at Galveston until he could himself make a trip to Velasco, and see if anything might not have occurred to change the aspect of affairs. The Colonel proceeded to Velasco, and presented his letter of introduction to the President and was treated as possible with still more civility than Captain P. had been. Colonel W. returned to Galveston and announced all the facts to his men—and told them that he was willing to abide their decision to wit: either to join the main army of return with them to the United States. Those who recoiled at the facilities we encountered in raising the corps, the high hopes which we were inspired by the plausible and pathetic appeals made to us by Texas agents in this country—the deep enthusiasm which was evinced by the whole community when we had taken to our native country and homes, may form some adequate conception of our personal chagrin and mortification, when we plainly discovered that our presence was considered by the authorities of the country as an intrusion, when we seemed to be looked upon as men who had come to claim that which had been won by the valor of others. Let any honorable man put the question to himself, and say, what would have been his feelings and what course of conduct his own sense of propriety would have dictated? This however was personal to ourselves. We have said that Texas was unworthy of public aid or sympathy.

We must state that our personal observation and uncolored information enabled us fully to perceive, 1st, That the present population of Texas, seemed wholly incapable of a just idea of civil and political liberty, and that so far as the extension of liberal principles is concerned it is of but little moment whether Mexico or Texas succeeds in the struggle.

2d, That the mass of the people from the highest functionary of their pretended Government to the humblest citizen (with but few exceptions) are animated alone by a desire of plunder and appear to be too indifferently to their plunder, friends or foes.

3d, That even now there is really no organized Government in the country—an law administered—no Judiciary—a perpetual struggle going on between the Civil and Military Departments—and neither having the confidence of the people or being worthy of it. We will here state two or two facts which may tend to show the estimation in which they are respectively held by each other, and their capacity to enforce their orders.

The Secretary of War came down with a Quartermaster and steamboat to carry his baggage, consisting of provisions, clothing, &c. to the main army. Captain Switzer, volunteer enigrant from Ohio, who had lately arrived, wanted some clothing for his men and determined that unless he was first supplied with such articles as he desired, the expedition should not proceed. He took possession of the outfit under the command of Colonel Morgan, loaded the cannon, and prepared to fire on them if they attempted to move without his permission. He then sent a file of men on board and took the vessels into his own possession and sent the honorable Secretary with his Quartermaster and steam boat back to Velasco! Again the President and Cabinet appointed General Lamar to the chief command of the Army—the Army promptly refused to receive him, and the power and authority of the Cabinet were contemptuously disregarded. The Army, then, doubtless, after due deliberation, resolved that the Cabinet was either corrupt or imbecile, (probably both) and it being necessary, in their opinion to get rid of them, determined to do so by a summary process. They therefore sent an officer with instructions, forthwith to arrest them and bring them on to Head Quarters to be tried, according to military usage. This order, however, was executed, simply because the officer charged with its execution had not the physical force requisite.

These facts and others sufficiently demonstrate to us that the Cabinet was deficient in all the requisites as a good Government, and that no one in his senses, would trust himself, his reputation or his fortunes to their charge or control. Charged with treason, bribery and usurpation, weak in their councils and still weaker in power to enforce their orders; we perceived at once that we must look for safety and proper inducements elsewhere. We then turned our eyes to the Army, and conceived still more dishonouring presented itself—undisciplined, and without an effort to become so—not a drill called nor a drill—no regular encampment—no authority nor obedience—with plundering parties for self-enrichment, robbing private individuals of their property. We could see nothing to induce us to embark our fortunes and destinies with them. With these views and facts we could but sicken and wonder at the disposition which had been practised on us; yet we were told that this people had risen up in their might, to vindicate the cause of civil and religious liberty. It is a mockery of the very name of Liberty. They are stimulated by that motive, which such men can only appreciate, the hope of plunder. They are careless of the form of Government under which they live, if that government will tolerate licentiousness and dissipation—such is a brief and true picture of the political picture of a country to which we were invited with so much enthusiasm and such the manner in which we were received and treated.

We might multiply facts, in support of each proposition here laid down, to show the miserable condition of things in Texas and the utter impossibility that a man of honor could embark in such a cause with such men. Should it be rendered necessary, we may yet do so; but for the present we will pause with this remark, that if there be any, now, in Kentucky, whose hearts are animated with the desire of being part of a free and independent settlement for themselves or families, they must look to some other theatre than the Plains of Texas. We would say to them, listen not to the deceitful and hypocritical allurements of LAND SPECULATORS, who wish you to fight for their benefit and who are as liberal of their promise as they are faithful in performance. We are aware of the responsibility which we incur by this course. We are aware that we subject ourselves to the misrepresentation of lured agents and unprincipled land speculators. But we are willing to meet it all, relying upon the integrity of our motives and the correctness of our cause.—We left our native land our peaceful families with a solemn resolution to devote our undivided energies to stop the course of Mexican desolation and build up a free and flourishing Commonwealth. The very fact of our going sufficiently indicates the cause. Our return and the circumstances which caused it, equally proclaim our infatuation. That others may not be deluded, is an additional motive with us to make this publication.

EDWARD J. WILSON,  
G. L. POSTLETHWAITE.  
P. S. It may be here proper to state, the commission of General Chambers is not recognised in Texas. He derives his commission from the former Governor, (Smith) whose acts have been officially declared null and void.

To those Gentlemen of Kentucky who drive Stock to the South.

I HAVE now in complete repair a NEW ROAD, from Captain Garrett's in Morgan county, on Piles old Turnpike, crossing Cumberland Mountain in a direct line for Athens; shortening the distance from 15 to 20 miles, either by the Kingston or Grassy Cove routes, and much the best way. The distance from Captain Garrett's to Major Alley's 12 miles—from Alley's to Brown's in the main Cumberland stage road, 8 miles—from Brown's to Tennessee river, White Rock Landing, 5 miles—from Tennessee river to Major Sharp's, on the Athens road, 5 miles.

I am provided with the best of watered grass Lots for Horses or Mule Drivers and Hog Lots, also, Grain, Hay and Fodder; and am well prepared to accommodate Drivers and Travellers. I have established a new ferry on Tennessee river, where I own both banks, and am well provided with boats and canoes, and Lots on the river, and Corn on good terms. Drivers having time, or lame hogs, or who may have any drawn at my ferry, are informed that I will take them, if large and fat, at five dollars a hundred, or lump sum and vessels to suit up, as the owner may choose.

A reference to Mitchell's map will convince any gentleman of the advantage in distance in this new route; and I solicit any old acquaintances of the Kentucky Drivers, who knew me at St. W. Point, to try my new road and ferry. No gentleman after trying will be dissatisfied, for nothing in my line shall be wanting to accommodate those who give me a call.

SCHOOL FOR CIVIL ENGINEERS.

Connected with the Georgetown College, (Ken.)

THE Professor having matured his plan and extended his course, it is considered proper to lay before the public such information as may be required by the public, and to direct to him from different parts of the country.

The demand for Civil Engineers throughout the Union, and the impetus which the "Surplus Revenue" will give to Internal Improvement, conspire to make this the most lucrative profession in America.

It is safe to predict that, in less than three years the wages of well instructed Assistant Engineers will be \$3000 per annum—as in many parts of the country they are now \$2000. Principal Engineers in different parts of the Union are now receiving from \$4000 to \$10,000 per annum.

Several young men have completed the course of studies in this institution, and immediately obtained employment at \$1000, \$1200 and \$1500 per annum. Young men who have studied a regular course of Mathematics may complete the course in six months, at an expense of from \$100 to \$120. Others will require at least twelve months.

COURSE OF STUDIES AND INSTRUCTION.

1st. The full course of Mathematics studied at West Point, (Davies' Mathematics) from Arithmetic to Fluxions, inclusive.

2d. Chemistry, Natural Philosophy, Geology and Mineralogy.

3d. Drawing and the principles of Construction.

4th. CIVIL ENGINEERING, theoretical and practical.

The Text Books in Engineering are Smeaton's and Mahan (Prof. of Engineering at West Point) Wood on Rail Roads (American edition) "Island Navigation" from Bowditch's Cyclopaedia, and various other standard works in the different departments of Civil Engineering, which will be used for works of reference.

The Practical part of the course will be attended to in the months of April and October. During these months the Professor will be engaged with the Class, in a regular tour, with the Theodolite, Compass, Level, &c. &c. making preliminary surveys for Rail Roads (American edition) Canals and Turnpikes—inspecting the public works of the state, the Rail Roads and Canals—the Curves, Culverts, Bridges, Embankments, Excavations, Inclined Planes, Locks, Dams, &c. to conclude with a report of the Survey.

The Students of this school have the privilege of attending gratis, any other department of the Georgetown College, which is perhaps the most fully organized institution in the West. The Faculty consists of a President and Professor of Moral Philosophy; a Professor of Ancient Languages; a Professor of Modern Languages (a Foreigner); a Professor of Metaphysics, Belles Lettres and Political Economy; a Professor of Mathematics; a Professor of Drawing; a Professor of Civil Engineering and an Assistant. They have likewise the free use of the Library, Philosophical and Chemical Apparatus.

EXPENSES.—Tuition for the first session (six months) will be \$50 in advance, which will include the regular College fee of \$20, the fee for the Practical tours, Drawing, Drawing Instruments, Materials, Stationary, &c. Tuition for every session after the first will be \$30 in advance, including the above items.

Board, from \$40 to \$50 a session, exclusive of Fuel, Lights and Washing.

August, 1836. The following extracts of letters from two of the most scientific men in our country, will serve to show the utility of this School.

FRANKFORT, July 19th, 1836. Dear Sir—The four young gentlemen from the Georgetown Mathematical School, who are engaged as assistants in the Engineer Corps of the State, have performed the duties assigned them in a very satisfactory manner. Among the young gentlemen with whom I have had the pleasure of conversing, I have been struck by the proficiency of Civil Engineering, those who have been educated at Mathematical Schools have generally succeeded better than the graduates of our common Colleges.

Very respectfully, your obedient servant, SYLVESTER WELCH, Engineer in Chief for the State of Ky. Georgetown College, Ky.

Lexington, Va. July 29, 1836. Sir—It affords me pleasure to testify to the very correct and satisfactory manner in which the two young gentlemen from your school have conducted themselves during the time they have been in the service; and the ability manifested by the prompt and skillful discharge of their several duties is alike creditable to them and the character of the Institution in which they were instructed.

The books comprised in your course of studies are appropriate and well selected. I am pleased to hear that Topographical and Arithmetical Drawing are to form a part of your future course. This is an elegant accomplishment to an Engineer, and in the early part of his career will frequently bring him into notice and hasten his promotion to more responsible stations, where his talents may be fully developed.

Appreciating as I do your efforts to elevate the profession, I trust they will be crowned with success, and I assure you it will afford me a very great pleasure to render any aid in my power to second your views.

Your most obedient, THOS. F. PURCELL, Engineer in Chief Lex. & Ohio R. R. To the Professor of Civil Engineering, Georgetown College.

APPRENTICES WANTED TO THE CONFECTIONARY BUSINESS.

YOUTHS from 14 to 15 years of age, of respectable families will be preferred. Parents who have children they would like to have learn a good and profitable trade—one which is as good, if not better than any other now followed, would do well to apply immediately to

## TRANSLYVANIA UNIVERSITY, MEDICAL DEPARTMENT.

THE Lectures in this Institution will commence, as usual, on the first Monday of November, and terminate on the first Monday of March. The courses are on

Anatomy and Surgery, by Doctor DUDLEY;  
Institutes of Medicine, Clinical Practice, and Medical Jurisprudence, by Doctor CALDWELL;  
Theory and Practice of Medicine, by Doctor COOKE.

Obstetrics and the diseases of women and children, by Doctor RICHARDSON.  
Materia Medica and Medical Botany, by Doctor SHORT.  
Chemistry and Pharmacy, by Doctor YANDELL.

During the entire term the Professor of Anatomy and Surgery lectures nine times each week, and the other Professors daily, sabbath excepted. The fee for the entire course, with matriculation and use of an extensive library, is \$110. The graduation fee is \$20.

It is thought proper to state, inasmuch as reports have been current as the high price of board in Lexington and the difficulty of obtaining it, that many students, during the last session, found comfortable board, including lodging, fuel, lights, servants' attendance, and in some instances washing, for \$3.00 per week, and it is confidently believed, notwithstanding the increased price of every article of living, which is felt here in common with all other parts of the country, that students will be as comfortably accommodated, and upon as reasonable terms, as at any other respectable Medical School in the Union.

By order of the Faculty.  
C. W. SHORT, M. D. Dean.  
Lex. Ky. July 11th, 1836.—37-1st Nov.  
The publishers of the following papers are requested to insert the above to the amount of \$5, and send the papers containing it to the Dean, or the receipt of which money will be returned, viz: Journal & Advertiser, Louisville; Eagle, Louisville; Ky. Gazette, Cincinnati; State Journal, Columbus, Ohio; Whig and Banner, Nashville, Tenn; Republican, St. Louis, Mo; Southern Advocate, Huntsville, Ala; State Intelligencer, Tuscaloosa; Mississippi Journal, Natchez; Register, Vicksburg, Miss; Bulletin, New Orleans; Register, Mobile, Ala; Pensacola Gazette, Recorder, Mobile, Ala; Gen. ## Stimulating Liniment No. 1.

AN IMPROVEMENT OF JEWETT'S STIMULATING LINIMENT, No. 2.  
Manufactured and sold by M. L. Lewis, wholesale and retail.

THIS LINIMENT is celebrated for its soothing and stimulating qualities, to those who are in pain. It has a decided advantage over all other Liniments known, as it is not so volatile; there is a body to it which keeps the articles of stimulant from escaping from the system, and when the absorbent vessels take up the substance of the Liniment, it puts the system into action, and then the covering is thrown off, and perspiration makes its appearance.  
The following certificate will show to the reader, what has been done with the above article, towards relieving those who have used it, who were sorely afflicted with pain.  
We, the undersigned, having used Dr. Lewis's Liniment, believe it to be as good as is recommended.

Dr. J. R. CUNNINGHAM.  
Dr. W. M. CONSTANT.  
Dr. W. M. GLENN.
